CRAFTING SEAMLESS
MODULAR EXPERIENCES
FOR BEAUTIFUL HOMES

“If it’s not made for you,
it is mass-produced.”

Think **Modular**, Think **Homaa**.

HOMAA is the brand identity of our modular furniture factory located at one of Hyderabad’s premier suburbs - Shamshabad. In this modern design world, we’re trying to change the way a home-owner experiences innovation through design, one home at a time.

In order to stay ahead in the field of contemporary furniture we have wisely invested in modular German machinery. Our philosophy to maintain highest quality standards ensures that extraordinary care is given to materials, finishes and processing techniques.

Our frequent collaborations with architects and designers have helped us to corroborate a taste for sophisticated design that is also functional as well as ergonomical.

HELLO HYDERABAD!

- **35+ years of credibility**
- **2100+ installations across Telangana & A.P**
- **10 year “Piece of Mind “ Warranty on all Products**
- **21 days - Best delivery time in Industry**
- **Homaa Smart+ - A 360* value added approach designed by designers for designers**
- **30+ Collaborations with International Brands**

PRODUCTION CAPABILITIES

- **60k sq ft of panel cutting in a month.**
- **In-house quality checks.**
- **10,000 sq ft Manufacturing unit at Hyderabad.**
- **Ware housing facility for Raw Materials.**

DESIGN PHILOSOPHY

We are a family brand. And this makes the foundation for the beliefs of HOMAA. We constantly work towards simplifying the smallest things that bring joy to a family. Paying attention to detail and creating sensible designs have become the backbone of HOMAA. Every design is innovative and well-researched and handled with utmost precision. These designs are crafted with great care so that they are functional and stylish at the same time!

INSTALLATION CAPABILITIES

- **ISO 9001:2015 Certified**
- **BIFMA Certified**
- **Professional In-house installation teams.**
- **Adherence to SOP, Safety & all statutory requirements**
- **Pre-drilled kitchens enabling faster completion of kitchen installation**
- **Competent in installation of highly engineered kitchen & wardrobe hardware like RAUMPLUS/ARISTO sliding systems, KESSEBOHMER / BLUM accessories.**

Why Us?

INTERACTIVE DESIGN

We design kitchens that optimize workflow with improved functionality and ergonomics. Every small detail and practical features assure you of creating an enhanced experience.

HI-TECH MACHINERY, EXPERIENCED WORKFORCE. 100% PRECISION.

Blending contemporary aesthetics and state-of-the-art technology, each and every product is made with extreme precision. With decades of experience, our skilled design team reflect accuracy with every meticulous detail.

QUALITY & WARRANTY

We maintain stringent quality control measures to ensure our products meet customers' expectations and adhere to our defined set of quality criteria.

CABINET GUARANTEE

Loudly closing kitchen cabinets are a thing of the past. We assure you the 10 year guarantee on kitchen cabinets and a 10 TO 15 year guarantee on premium kitchen cabinets.

SHUTTER GUARANTEE

All our Shutters carry a warranty of minimum 5 years which can be extended upto 10 years with superior choices of raw materials, finishes and surfaces.

PROJECT MANAGEMENT & CHECKLISTS

We understand the workload a designer faces during execution of a site. Keeping this in mind, we appoint Professional project managers to answer your queries who ensure project time lines.

QUICK DELIVERY & IN HOUSE INSTALLATION

We have removed all the stress, the dirt and disruption you endure while making furniture in the house. Our installation specialists will install your kitchen in not more than three days.

wow factor.**

PLANNING MAKES PERFECT

Your wardrobe is your personal space, which reflects your personality. Therefore, a one-design-fits-all wardrobe can never really satisfy your needs completely. We custom-designs your wardrobe taking into consideration the following points.

WHAT DO YOU WANT TO STORE

Storage planning requires a thorough study of the needs of the user and the kind of clothes and accessories to be stored. This is why the internal design differs from a 'His' and a 'Hers' wardrobe.

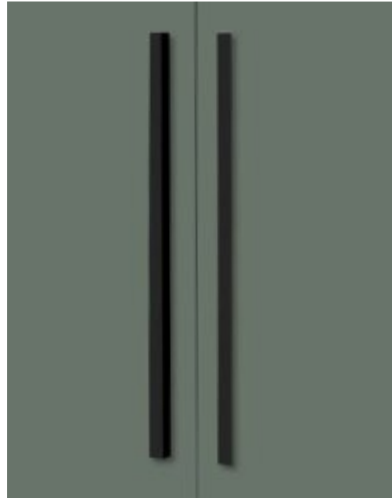

HEIGHT OF THE USER

The heights of the shelves too differ from person to person. As a taller person can reach a shelf placed at a higher level, but a shorter person cannot, the shelves have to be placed at a level best suited for him or her.

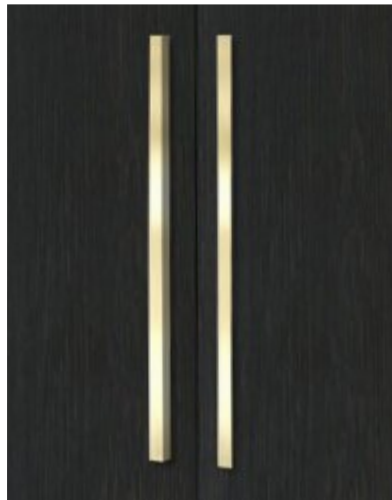

FREQUENCY OF USE

Storage should be planned according to usage. So daily used articles are stored within reach, frequently used articles are stored further above or below, and rarely used articles are stored in spaces that are difficult to reach.

Sleek Handles

DREAM KITCHENS MADE EASY

We Measure

Details are what make the design. Our team will visit your home to accurately measure the kitchen area.

We Plan

Your Dream Kitchen – it starts with an empty space and endless possibilities. Our experts design your kitchen in consultation with you. From form to function, everything is carefully considered when creating your unique kitchen.

We Deliver

Once you are happy with the design, you're ready to order. The kitchen of your dreams will soon be at your door step. We deliver the kitchen to you at no extra cost.

We Install

A perfect installation can add years to the life of your kitchen. IFB provides expert installation service with your kitchen at no extra cost.

What determines the price?

Your choice of cabinets, shutters, hardware, countertops, skirting, hinges, plinths, legs, drawers, knobs/handles accessories, sinks, taps and appliances.

RAW MATERIALS & BRANDS

We work together with the clients to determine the overall look/feel/touch they are trying to achieve. By understanding our clients' needs properly, we can determine the best material to achieve success.

What do we look for in choosing materials and brands?

- Function – what problems do we expect this product to solve
- Durability – the product should stand the test of time
- Aesthetics – the fine balance between appearance, durability and cost
- Cost – the balance between high quality materials and keeping costs at an appropriate level
